

Update Jayra Sport in connection with the coronavirus

For the time being, the measures taken by the government are such that we cannot give lessons until April 6. New measures have since been taken by the government until 1 June, but not explicitly for education and gyms. As soon as we have received notification from the NOC-NSF about this, we can also take further steps. It is also not yet entirely clear to us whether and what support we can expect from the government and in what period. Obviously, we are investigating this.

As we indicated in our previous message about the coronavirus, the tuition fees are therefore continuing for the time being. I am aware of this inconvenience to you and that is why we are still working hard to find solutions to appreciate your patience and loyalty, I hope to inform you further in April.

We understand better than anyone that if you yourself have also got into trouble because of the measures taken by the government, you decide to have the collection reversed. It is true that the solutions / compensation that will be announced by us in due course, do not apply to those who have refunded the tuition fee.

We will continue to monitor developments closely. And keep you informed.

IMPORTANT:

If you have not yet downloaded our Jayra Sport App, please my request to do so, because I will now announce all communications by means of a push message. Also keep a close eye on our website menu "corona blog".

Hoping for your understanding.

Stay healthy, watch yourself and hopefully see you soon!

Regards,

Ajay Gangadin
